

Axis Traders Pro Installation Guide

Minimum System Requirements:

Processor: Intel Core i3 4th generation or higher

RAM: Minimum 4 GB

System type: 32 – bit operating system or higher

Storage: 256 GB HDD/SSD

Application Storage Space: 200 MB to 1 GB

Operating System: Microsoft Windows 10 or higher (ensure it is up-to-date)

Internet Access: Required

Network Interface: Integrated Broadcom 10/100/1000 LOM (BCM5787)

Peripheral Devices: Keyboard, Mouse, Monitor (colour display)

Prerequisite Software:

NET Framework: Axis Traders EXE requires .NET Framework 4.8 or higher.

If not installed or outdated, please download and install the latest version of .NET Framework from the official Microsoft website.

Installation Steps:

1. Download the Zip File:

Visit the Axis direct website and download the zip file using this link:

<https://order.axisdirect.in/autoupdate/Traders-Pro.zip>

2. Unzip the File:

Once the file is downloaded, unzip it by extracting its contents.

3. Install the Axis Application:

Open the extracted folder (with the Axis name) and install the Axis application.

4. Shortcut Creation:

Once the installation is complete, a shortcut to Axis application will be automatically added to your desktop.

Error Messages and Troubleshooting:

Slow or Stuck Installation:

- If the installation process takes too long or appears to be paused, follow these steps:
 1. Delete the previously downloaded zip file.
 2. Re-download the zip file from the official website.
 3. Ensure you have a stable internet connection and try reinstalling the Axis application.

By following this guide, you should be able to successfully install Axis application. For any further assistance, please contact customer support.
