

How to place a GTDt SELL order – Swift Trade?

A GTDt order is a functionality that allows you to place an order for future date and is active in the system for 90 calendar days, below are some of the features of a GTDt order:

- 1) There will be a new order placed everyday which would get cancelled automatically in the end of the day if not executed
- 2) If the daily price range of your desired scrip hits the circuit, the order placed on the said day will be blocked for the day and you will get an E-mail informing you about this block

Step 1: [Click Here](#) to login to your account, click on **‘SWIFT TRADE’** and then on the **‘Equity’** tab
